LESOTHO	Further information indicates that the 50 Licente coin previously listed was strictly commemorative and not a circulation issue. No Lesotho coins are planned in the foreseeable future and the country plans to continue to use South African currency. It therefore appears that all Lesotho coinage thus far has no status as even an intended coinage.	
LIECHTENSTEIN	The rare Taler (Y-1) has been restruck recently, but with a distinguishing mark. Originals show a small "A" under the bust, and the restrikes have a small "M" in place of the A.

EDITCR'S NOTE: The above listings are condensed from "Whitman Numismatic Journal", published by Whitman Publishing Co., Racine, Wisconsin 53404. Subscription rates are \$3.50, 6.50 and 9.00 for 1, 2 or 3 years. It is highly recommended that all NI members subscribe to this valuable and necessary publication. Plates of the above coins and further information can be found in the "Journal".

YEOMAN ERROR PROJECT: The project is progressing smoothly and we have succeeded in obtaining a meeting with Mr. Holland Wallace (a new NI applicant this month) of the Whitman Publishing Co. Staff in December to discuss it in detail. Mr. Wallace and Neil Shafer have both agreed that the project will be welcomed by the Whitman Publishing Co. for consideration of changes in the 8th Edition Yeoman. The 8th Edition is not in the planning stages at this time so it is not necessary to rush the project to completion, but keep in mind that those working on it should make every effort to complete their assignments according to the schedule previously furnished. The coordination and final report of the project will take several weeks after all reports are in.
